

GERMAN ERSATZ BAYONETS DURING WORLD WAR ONE

THIS BOOK PRESENTS THE GERMAN ERSATZ BAYONETS USED DURING THE FIRST WORLD WAR WHOSE DIVERSITY OF THE MODELS STILL BRING TODAY AN ATTRACTION FOR THE COLLECTORS AND AN ENDLESS FIELD OF RESEARCHES. IN THESE 256 PAGES MORE THAN 300 BAYONETS AND THEIR ACCESSORIES, SCABBARDS, TRODDEN AND FAUSTRIMEN, WILL BE DISPLAYED ILLUSTRATED BY MORE THAN 800 COLOR PHOTOS AND MORE THAN 200 PERIOD PHOTOS MOST OF THEM HAVING NEVER BEEN PUBLISHED BEFORE. THESE WEAPONS ARE MOSTLY WAR TROPHIES BROUGHT BACK BY THE SOLDIERS DURING LEAVES OR FOUND AND PICKED UP ON THE FIELD. FORGOTTEN IN ATTICS OR CEILINGS, WORN BY THE TIME, ABANDONED AND LEFT TO THE RUST, THESE PIECES ARE THE WITNESSES OF THESE TERRIBLE TIMES. ALMOST ONE CENTURY LATER, THESE NOW QUITE HARMLESS BAYONETS DEFINITELY ENTERED IN HISTORY. THIS BOOK IS ALSO A WAY TO PAY HOMAGE TO THE COMBATANTS FROM ALL COUNTRIES FELT ON THE BATTLEFIELDS.

The English version of my French book on Ersatz bayonets, should be printed at the end of February. I expect a price of around \$83.00, worldwide shipping included. I'll be using our French shipping rate on " books and brochures", which is slow but caused no problems. To buy the book, it is better not to turn to Ebay, but directly to my site or to me, avoiding extra costs and gaining time. Payments will be possible via BIC/IBAN payment or via Paypal. Unlike the French hardback version, the English version of the book is expected to be in paperback. The book will contain the same number of pages but some of the contemporary photos of the French edition have been replaced by unpublished photos of great quality. The English version contains also some more new information as the English text takes lesser volume than the French text. Interested collectors can order me a copy by simple email message. At first, the English edition will be limited at a 100 copies, but more copies can be printed later.

GERMAN ERSATZ BAYONET

ERSATZ with a scabbard blade

ERSATZ with scabbard S.D. 1.3.30.128 (Brenn's Battalion, 9th Leuchter Infantry Regiment, with 100)

Group of the 10th Infantry Regiment, photographed November 18, 1918 with ERSATZ scabbard bayonet and Brenn's Battalion

GERMAN ERSATZ BAYONET

STAHLBLECHSCHEIBE ZUM INFANTERIE-SETZUNGSWEHR 71

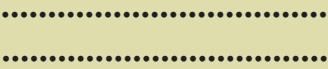

This replacement scabbard was made for the IS 71 for some other bayonets, such as the Italian modified with a steel handle, can fit in. The body is steel with a screwed on mouthpiece connected to flat springs to hold the blade in the scabbard. Usually it is painted black. A hook for the frog is welded close to the screw.
